U.S. Forensic, L.L.C. is an employee owned forensic engineering firm offering forensic engineering evaluation, opinions, reporting and expert witness testimony. We currently maintain offices throughout the southeastern United States with technical expertise including mechanical engineering, civil engineering, structural engineering, electrical engineering, environmental / indoor air quality (Certified Industrial Hygienist) services, vehicle accident reconstruction and fire cause and origin investigation.

U.S. Forensic specializes in forensic engineering with an emphasis on determination of cause and origin of loss and extent of damages. Since forming in 2006, U.S. Forensic has performed thousands of inspections of various equipment, vehicles, facilities, homes and businesses damaged by storm, fire, third parties, improper design, construction, improper maintenance or misuse.

Primarily we focus on determining the cause and extent of damage, offering oral and written reports of findings along with repair recommendations, diagrams, schedules and costs when requested. When needed, we have testified as expert witnesses in our respective disciplines in local, state and federal courts.

Our Professional Services will be performed in a fair, honest and objective fashion consistent with industry standards. All opinions rendered will be based on the facts of the specific assignment and all work to complete an assignment will be performed under the rules and regulations of the authoritative engineering board of the state in which the evaluation is being conducted. The U.S. Forensic customer service goal is to provide a high quality, accurate and unbiased technical consulting service delivered in a cost effective and timely manner.

## Stokes & Associates, Inc.

By carefully listening for the key issues at the onset of our engagement in a case, we quickly map a plan to provide the right level of service.

Larry S. Stokes holds a Ph.D. in Counseling, specializing in Rehabilitation Counseling with a minor in Research and Statistics from the University of New Orleans, Louisiana. He is a licensed Rehabilitation Counselor, licensed Professional Counselor, and is board-certified in Rehabilitation Counseling and Case Management.

His research is focused on predicting return-to-work in litigated personal injury cases, particularly in the area of employability, placeability and wage-earning capacity.

He is an adjunct Assistant Professor with the Counseling Department at the University of New Orleans. He is a member of the Louisiana Association of Rehabilitation Professionals and is a member of the American Counsel Association, National Rehabilitation Association, National Head Injury Foundation and specialty associations within those parent associations. He has been in private rehabilitation practice since 1982.
